PROFESSIONAL SUMMARY

Backend Developer with strong expertise in Java and Spring Boot, experienced in building and deploying secure REST APIs with JWT-based authentication and role-based authorization. Hands-on experience developing backend systems with pagination, search optimization, and database-driven applications. Skilled in writing clean, maintainable code and applying object-oriented design and SDLC principles.

TECHNICAL SKILLS

- **Programming Languages:** Java (Core Java, Java 8+), OOP , SQL
- **Technologies & Frameworks:** Spring Boot, Spring Security , Hibernate (JPA), JDBC, RESTful APIs
- **Security:** JWT Authentication, Role-Based Authorization
- **Testing:** JUnit 5 , Mockito
- **Databases:** MySQL (CRUD operations, joins)
- **Tools:** Git, GitHub, Postma , Maven
- **Frontend:** HTML5, CSS3, JavaScript (ES6+)
- **Data Structures & Problem Solving:** Arrays, Strings, Two Pointers, Sliding Window, Binary Search(foundational)

PROJECTS

MediReport – Secure Medical Records System

[GitHubRepo-Link](#) | [Live-Link](#)

- Designed and developed a role-based backend system with Spring Security and JWT authentication for secure access
- Built REST APIs across Hospital, Patient, Visit, and Document modules with structured architectures
- Reduced data load and improved response time using pagination and optimized queries.
- Integrated frontend with backend APIs using JavaScript and Fetch API
- Deployed backend on cloud platform (Render) with live API access

Employee Management System

[GitHubRepo-Link](#) | [Live-Link](#)

- Developed 20+ REST APIs using Spring Boot with DTO architecture and validation
- Implemented complex JPA relationships (One-to-One, One-to-Many, Many-to-Many)
- Applied lazy and eager fetching strategies to optimize data loading
- Implemented centralized exception handling and validation rules

Student Management System

[GitHubRepo-Link](#) | [Live-Link](#)

- Built REST APIs for CRUD operations with MySQL integration
- Designed standardized API response structures using ResponseEntity for consistent client communication.
- Applied DTO pattern and validation to ensure clean data flow
- Implemented global exception handling for error management .

EDUCATION

Master of Computer Applications (MCA) — VSU University | 2023 - 2025 | CGPA: 8.0

Bachelor's Degree (BSc) — ASR Degree College | 2020 - 2023 | CGPA: 9.7

ACHIEVEMENTS & CERTIFICATIONS

- Received the **Best Achievement Award** for outstanding academic performance during Bachelor's degree.
- Completed **Responsive Web Design certification** from freeCodeCamp.
- Completed **Java Full Stack Developer** training from Kodnest Technologies .
