

MAHESH KAKARLA

Software Engineer | Java | Spring Boot | REST APIs | OOP | Problem Solving | SDLC

+91 9618827390 | maheshkakarla66@gmail.com | Bengaluru, India | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

TECHNICAL SKILLS

Languages: Java (Core Java, Java 8+), SQL, JavaScript (ES6+)

Frameworks: Spring Boot, Spring Security, Spring MVC, Spring Data JPA, Hibernate (JPA), JDBC

Security & Testing: JWT Authentication, Role-Based Authorization (RBAC), JUnit 5, Mockito

Databases & Tools: MySQL, PostgreSQL, Git, GitHub, Maven, Postman, Swagger / OpenAPI, Render

Concepts: REST API Design, OOP Principles, DTO Pattern, SDLC, Layered Architecture, Exception Handling, Agile Basics

EXPERIENCE

Java Full Stack Developer Trainee | KodNest Technologies · Bengaluru *Aug 2023 – Mar 2024*

- Completed a structured **7-month Java Full Stack training** program under industry mentors; built **3+ full backend applications** using **Java, Spring Boot, Hibernate JPA, and MySQL** following SDLC and Agile practices.
- Developed RESTful APIs with **DTO architecture, Bean Validation, exception handling, and JPA relationships**; used **Git, Maven, and Postman** throughout — mirroring real software development team workflows.
- Practised **Data Structures & Algorithms** (arrays, two pointers, sliding window, binary search) daily — building strong problem-solving fundamentals needed for engineering roles.

PROJECTS

MediReport — Secure Medical Records Management System | [GitHub](#) | [Live](#)

Stack: Spring Boot · Spring Security · JWT · Spring Data JPA · PostgreSQL · JavaScript · Render

- Designed a **4-module backend system** (Hospital, Patient, Visit, Document) with **JWT authentication** and **RBAC for 3 user roles**; built **15+ REST APIs** following layered architecture — deployed live on **Render (cloud)**.
- Implemented **server-side pagination and JPA query optimization**, cutting response payload by **~60%** on high-volume endpoints; connected frontend via **JavaScript Fetch API** for a complete full-stack deployment.

Employee Management System | [GitHub](#) | [Live](#)

Stack: Spring Boot · Spring Data JPA · MySQL · DTO Pattern · Swagger / OpenAPI · Maven

- Built **20+ REST APIs** with **DTO architecture**; implemented **3 JPA relationship types** (1:1, 1:N, M:N) with lazy/eager fetch strategy — reducing redundant DB calls by **~40%**; added **Swagger / OpenAPI** documentation for all endpoints.
- Applied **centralized exception handling and input validation** across every route — zero unhandled edge cases, consistent error responses for all consumer clients.

Student Management System | [GitHub](#) | [Live](#)

Stack: Spring Boot · MySQL · Bean Validation · ResponseEntity · Maven

- Built full **CRUD REST API** with **standardized ResponseEntity structures, DTO validation**, and global exception handling for **5+ error scenarios** — clean, testable code with predictable API behavior.

EDUCATION

Master of Computer Applications (MCA) | VSU University *Sep 2023 – Jul 2025*

CGPA: 8.0 / 10.0

Bachelor of Science (BSc) | ASR Degree College *Jan 2020 – Jul 2023*

CGPA: 9.7 / 10.0 | Best Achievement Award — Top academic rank in batch

CERTIFICATIONS

- Java Full Stack Development** – KodNest Technologies (Mar 2024)
- Responsive Web Design** – freeCodeCamp (Dec 2023)
- Certified Web Developer** – Brainovision Solutions (Oct 2022)
